

Keurig Makes Office Brewing Deliciously Simple®

Keurig's Most Advanced Brewing System For Large Offices

Packed with features needed in larger offices when "Coffee Break Time" demands fresh brewed coffee NOW!

EXCITING BREWER FEATURES FOR LARGE OFFICES

- DIGITAL USER INTERFACE/EASY TO READ LCD SCREEN
- Users can self select 3 language options
- 4 different "brew" sizes
- Step-by-step brewing instructions
- Direct Water Line plumbed for unlimited back-to-back brewing every 60 seconds
- No need to remove K-Cup®—Automatic K-Cup Ejection and storage
- Removable Drip Tray for easy cleaning
- Mug and K-Cup Sensors prevent accidental brews
- Hot Water at the press of a button

Easy to Empty K-Cup Bin

The K-Cup is automatically ejected after each brew and drops into a convenient K-Cup storage bin for later disposal. And if more storage space is needed, a larger platform can be added (see additional accessories).

Mug and K-Cup Sensors

PREVENT ACCIDENTAL BREWS. This brewer will alert you if there is no mug or K-Cup present — helping to prevent accidental brews and brewing without a K-Cup.

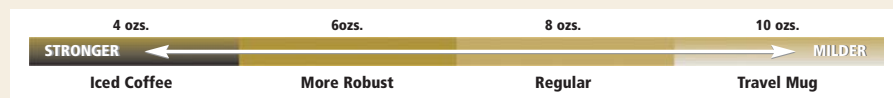

Removable Drip Tray and Easy Travel Mug Use

This large capacity tray is dishwasher safe, easy to remove, and can "flip" to allow travel mug brewing.

Four brew sizes let you match your favorite K-Cup with your favorite brew size... and voilà— your own recipe

CHOOSE FROM AN INTENSE 4 OZ. BREW ALL THE WAY UP TO A MILD 10 OZ. BREW.

4 oz. Brew

Our strongest profile — perfect for those who desire iced coffee, or if you drink espresso out of the office, try a bold or dark roast K-Cup.

6 oz. Brew

The next strongest profile compared to our regular brew strength. Try an Extra Bold K-Cup, deliciously designed to provide a slightly stronger and more robust taste profile.

10 oz. Brew

Provides our mildest coffee and fills your travel mug. When selected with favorites such as French Roast it delivers a bold, big cup.

8 oz. Brew

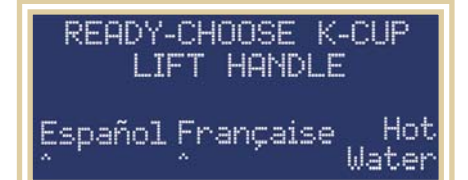

Our regular brew size. From an exquisitely balanced Breakfast Blend to a flavorful Hazelnut, it produces a consistently delicious cup of gourmet coffee or tea.

12" wide x 18" deep x 17 3/8" high 35 pounds (empty)

ADDITIONAL BREWER FEATURES

USER SELECTS 3 LANGUAGE OPTIONS Just walk right up and self select the language (English, French, or Spanish) for your own brew instructions. After each brew the LCD menu will convert back to the default language initially programmed.

DIRECT HOT WATER ONLY FEATURE Get instant access to hot water at the press of a button so you can make your favorite cup of soup, oatmeal, or hot cocoa.

CHOOSE YOUR ACCESSORIES

ask your authorized distributor for details

PLATFORM FOR ADDITIONAL USED K-Cup STORAGE
Add this platform to your brewer for additional used K-Cup storage and easy disposal - holds up to 70 used K-Cups.

VENDING COMPATIBLE
Add this Multi-Coin changer to vend. It accepts US and Canadian Coins: nickels, dimes, quarters and Canadian dollars.

Brewer shown here has both vending and additional platform - brewer configuration is also available with vend and no platform.
